

# MARTIAL LAW DECLARED IN MINING FIELD

Governor Mechem of New Mexico  
Orders Troops to Put Down  
Strike Disorders

## MR. LEWIS SATISFIED

Walk-Out Absolutely Perfect and  
Continues to Spread,  
He Says

Sante Fe, N. M. April 7.—Martial law was declared in the Gallup coal mining field this afternoon in a proclamation issued by Governor M. C. Mechem. Headquarters troops, at Albuquerque, and Troop D, of the National Guard at Sante Fe, were ordered at once to the field.

The proclamation was issued after an appeal from the sheriff of McKinley county, who reported a riot at Montmore Camp. No details were given.

Albuquerque, N. M., April 7.—Headquarters troops, New Mexico National Guard, left here tonight for Gallup, where, according to the sheriff of McKinley county, disorders have occurred, growing out of the coal miners' strike.

Troop D of Sante Fe also en route for Gallup.

Two companies of engineers located at Las Cruces have been ordered mobilized, but will not be ordered to Gallup unless their presence is deemed necessary.

Martial law has been proclaimed by Governor M. C. Mechem, according to advice received tonight from Sante Fe.

Conference Takes Recess.

New York, April 7.—The anthracite miners and operators' subcommittee in charge of the negotiations, which have been hearing testimony of union leaders in support of their demands as a basis for settlement of the present strike, took a recess tonight to permit the operators to prepare their side of the case.

After listening to what the miners have to say, the committee remains unchanged, said S. D. Warriner, president of the Lehigh Coal and Navigation company and spokesman for the operators.

"We still maintain the view expressed in our reply to the 19 demands, when they were first submitted," he said. "We believe that the miners' strike is a reduction in the price of anthracite coal to prevent destruction of the market and we believe a corresponding reduction must come in the wages of the miners."

Phillip Murray, vice president of the United Mine Workers of America and leader of the union delegation on the committee, expressed satisfaction with their case as it had been represented.

The miners closed their evening before the committee with arguments for establishment of the check-off system for collecting dues. They held that the system, once declared illegal by Judge Albert Anderson in the United States district court at Indianapolis, had been legalized by a reversal of this decision by the United States circuit court of appeals at Chicago.

John L. Lewis, president of the mine workers' international organization, tonight declared that the joint anthracite strike was "absolutely perfect and of the 100 per cent. response which had been anticipated."

The strike was continuing to spread into non-union territory and at a gratifying rate, he asserted. He estimated that of the 140,000 non-union miners in the country, 75,000 already have been organized.

Capacity of non-union mines, especially in West Virginia, Eastern Kentucky and Pennsylvania has been cut more than half, he said.

BRITISH TROOPS TAKE OVER  
DUBLIN CASTLE GUARD DUTY

London, April 7.—The morning newspapers today print the assertion that British troops, armed with rifles and fixed bayonets, took over guard duty yesterday in the upper yard of Dublin Castle.

The upper yard was handed over to the provisional government after the signing of the Anglo-Irish peace treaty. It is reported also that there has been a suspension in the disbandment of the Royal Irish constabulary, but to bring the disbanding to a halt.

HEADS MAINE UNIVERSITY.

Augusta, Me., April 7.—The trustees of the University of Maine today elected Dr. Clarence Cook Little of Old Spring Harbor, N. Y., as president of the university. He succeeds Dr. Robert J. Alcy, resigned.

# Syracuse and Rochester Play Tonight for Title

Syracuse, April 7.—Syracuse Central high school and Rochester East high school will play tomorrow night for the inter-scholastic basketball championship of New York state. These two teams won their way to the title game tonight by defeating, respectively, Plattsburgh high school and Mastic Park high school of Buffalo. The scores:

Syracuse, 31; Plattsburgh, 14.  
Rochester, 32; Mastic Park, 29.

Other Championship Games.

Glens Falls, April 7.—The final game in the third annual tournament for the scholastic basketball championship of New York and New England will be played tomorrow night between the teams representing Christian Brothers academy of Syracuse and the Holyoke high school of Holyoke, Mass.

In tonight's game, Holyoke defeated Glens Falls academy, 24 to 23, and Christian Brothers academy of Syracuse defeated St. Mary's academy of Catsburg, 22 to 21. Over-time periods were played in both games.

## 75 D. & H. BRAKEMEN OUT OF CARBONDALE LAID OFF

Scranton, Pa., April 7.—Reduction of freight volume incident to the suspension of the anthracite mines resulted today in the granting of indefinite furloughs to 75 Delaware and Hudson railroad brakemen who operated out of Carbondale. In addition, the company demoted 24 conductors to the brakeman roster.

## HOW A POLICE CHIEF HOLDS ON TO HIS MAN

Bit of Comedy-Drama Enacted on  
Central Train, With Lawyers  
Suffering Defeat

New York, April 7.—A bit of comedy-drama, in which John Warren, police chief of Dunkirk, N. Y., two aged prisoners he was taking home to face charges of swindling, two Manhattan lawyers and one Manhattan detective, played leading roles, was enacted today aboard a New York Central train.

Chief Warren and his prisoners, George Post, 72 and E. A. Starkloff, 65, alleged to be "get-rich-quick" swindlers, took seats in a Pullman. The chief had only a short time before taken the men from a magistrate's court. They were handcuffed.

Then, in great haste, the detective and lawyers representing the prisoners appeared.

"I have a writ of habeas corpus for these men, returnable before Justice Delahanty in state supreme court before 2 o'clock," said the detective.

"Yes," chorused the attorneys. "I am the chief of police of Dunkirk," replied Chief Warren, "and these men are going back with me."

And, before the writ could be placed in his hands, he rushed his prisoners into a drawing room, darted in behind them, and locked the door.

The detective shoved the writ under the door and the chief shoved it back with his foot. The lawyers pounded on the portal and pleaded with the chief to listen to reason. Meanwhile, the passengers thought an attempt was being made to effect an escape of criminals and shouted for police. Then the train pulled out of Grand Central station.

The lawyers continued to pound and the detective and the chief pleaded "put-and-take" under the door with the writ.

"I'm the chief of police of Dunkirk, Chautauque county," New York, and a determined man," shouted the officer from the drawing room. This must have been a cue, for the conductor came on the scene.

"I don't know who you are," he said to the lawyers and the detective, "but this is 153th street—last stop in New York. You are making a commotion and you'll have to get off."

Exit the lawyers and the detective. The lawyers declared tonight that they would seek Chief Warren's arrest on a charge of contempt of court.

## THIS HOLD-UP MAN CLAIMS A RECORD

Fred Perkins, Arrested in Buffalo,  
Says He Took Part in 25  
Big Robberies

Buffalo, April 7.—Complicity in 25 or 30 big bank and railroad hold-ups in western and southern states is said to have been admitted today by Fred Perkins, 35 years old, arrested Tuesday and questioned frequently by the police since then. Perkins told the officers where they could recover \$50,000 worth of Liberty bonds and theft stamps. He also gave information covering the present whereabouts of more than \$200,000 worth of government bonds and securities which he said were stolen by his gang in holding up banks and railroad trains in Oklahoma and other parts of the southwest within the last 18 months.

Perkins claims three members of his gang were captured after a hold-up in Oklahoma and are now serving long sentences in the Oklahoma state prison.

Perkins today was turned over to federal agents, who said his statement had been verified in many details.

ALBANY COUNTY CLERK DEAD.

Albany, April 7.—Luther C. Warner, clerk of Albany county and formerly leader of the Republican organization, died today, aged 58 years. Death followed an operation.

## BLAMES PRESS FOR N. Y. CRIME

Police Commissioner Enright Says  
Newspapers Have Invited  
Criminals to City

## PLEADS FOR SUPPORT

"Good Soldiers Cannot Be Made  
by Condemning Them Con-  
stantly," He Declares

New York, April 7.—Replying to charges that a crime wave was sweeping over the city, Police Commissioner Enright today told the Board of Estimate that the "lawless elements have never been allowed to get out of hand," although "the press has invited criminals from all over the world to come to this city, where they falsely allege that crimes may be committed with impunity."

At the same time that he asserted deeds of violence had fallen off 10 per cent. since 1917, the commissioner obtained from the board authorization to appoint 1,192 extra policemen at a cost of approximately \$1,000,000. This increase was necessary, he said, in order that citizens may be "assured the safety of life and property" because of the alarm raised by newspapers.

Both before the Board of Estimate and at the regular monthly luncheon of the New York Press club, the commissioner attacked newspapers for raising what he termed "unwarranted hue and cry and indulging in unjust criticism" of his department.

At the board meeting, Mayor Hylan stated he had been informed gamblers were attempting to "plant a propaganda" to drive the commissioner from his post and Mr. Enright expressed the opinion that the gamblers would be glad to have him out of the department.

## Commendable Efficiency Shown.

In a formal communication to the Board of Estimate, the commissioner set forth:

"The department has handled police conditions in this city during the critical period which we have passed through with commendable efficiency and the lawless elements have never been allowed to get out of hand."

"There are four crimes of violence in the criminal calendar: murder, felonious assault, assault and robbery, and burglary. During the first quarter of 1917 we had 3,440 of such crimes, but during the last quarter of 1922 there were only 2,769, a decrease of about 19 per cent., notwithstanding the increase in population, the presence of a large army of unemployed, and the unusual industrial conditions now prevailing."

"The press of this city, from time to time has taken occasion to criticize the department and to exploit and glorify criminality in this city and they have invited criminals from all over the world to come to this city where they falsely allege that crime may be committed with impunity. Hundred of desperate criminals have stated at police headquarters that they were induced to commit crimes because the newspapers had advertised that it was easy and safe to do so."

## Refers to Shattuck Robbery.

Referring to the \$60,000 jewel robbery last Sunday, during which ten persons were imprisoned in a wine vault, the commissioner's communication said:

"The perpetrators of the crime committed at the home of Albert C. Shattuck, No. 19 Washington Square North, came without the city, and this is true of a large number of criminals who have recently been captured red-handed in this city."

At the press club, Mr. Enright made a plea for "moral support" by the newspapers.

"Good soldiers cannot be made by condemning them constantly," he said. "Napoleon Bonaparte made good soldiers by telling his men they were good."

At present, he said, there was an average of 900 crimes committed monthly.

"If these are to be emblazoned on blackboards," he said, "everyone is going to get excited and the criminal encouraged. In my opinion, there never will be such a thing as a crimeless city."

While there was being distributed to precinct stations for free distribution a pamphlet by Commissioner Enright on "How to Guard Against Crime," with a list of "don'ts" for citizens, another shooting was reported at the West 153th street station, five of whose patrolmen have been shot since last December.

The latest victim was Patrolman Pat McHugh, who was shot by one of three negroes, who, he was attempting to arrest in the black belt after they had tried to hold up Joseph Fass, collector for an insurance company. At the hospital it was said he probably would recover.

## GALLI-CURCI'S JEWELS FOUND BENEATH A TREE

San Diego, April 7.—The jewels valued at \$45,000 reported lost by Madame Amelia Galli-Curci, noted singer, at a restaurant at San Juan Capistrano yesterday, were found today by an automobile expressman and returned to their owner, according to an announcement made tonight by her manager. The jewels were found beneath a tree by the side of the highway between this city and Los Angeles.

## MR. WILLARD DENIES M'ADOO 'TIRED' HIM

President of B. & O. Tells His  
Side of Story of Federal  
Railroad Administration

Washington, April 7.—Daniel Willard, president of the Baltimore & Ohio railroad, today, before the senate interstate commerce committee, told his side of the story of his governance of the railroad administration.

"The publicity department of the administration got its wires crossed and it was given out that I was tired," said Mr. Willard, who denied he was dismissed and said he, with other executives in the railroad administration was given the option of retaining his railroad position or a government position.

"I was recommended to remain with the railroad administration as federal manager of the eastern lines of the Baltimore & Ohio," said Mr. Willard, "but I elected to retain my connection with the corporation."

Mr. Willard said Mr. McAdoo's complaint of alleged inefficient operation of the Baltimore & Ohio was made only 21 days after he became director general and without consultation by Mr. McAdoo with him or any other Baltimore & Ohio officials.

"Further it was written six days after I had resigned my position as chairman of the war industries board in order that I might devote my entire time to Baltimore & Ohio affairs," said Mr. Willard.

Mr. Willard also denied statements made to the committee by Frank J. Warne on behalf of the railroad brotherhoods that the Baltimore & Ohio was interested financially in coal producing companies along its lines or in railroad supply concerns.

## HAVE A HEART, RUTH FANS TELL LANDIS

Dyed-in-the-Wool Yankee Rooters  
Petition Judge to Lift  
Suspension Order

New York, April 7.—Dyed-in-the-Wool Yankee fans today started circulation of a petition to former Judge K. M. Landis, commissioner of baseball, requesting the reinstatement of Babe Ruth in the A. League team line-up that he may play the opening game of the season next Wednesday at Washington. G. C. Hill, who is sponsoring the petition, said tonight he had obtained 1,000 signatures in a few hours and expected to have fully 20,000 before he presented it to Commissioner Landis.

The petition declares that it is the opinion of a majority of fans that Ruth's suspension until May 29, imposed when he persisted in playing on a "barnstorming" tour last fall, should be lifted, that the public might see him in action and that he may attempt to make another home run record.

"We do not condemn Judge Landis for enforcing this rule," it says, "but we think he should consider the public and take steps to have the rule repealed."

## BECK'S SLAYER TELLING TRUTH?

If So, Any Red-Blooded Jury Will  
Acquit Him, Prosecutor Says  
of Oklahoma Shooting

## NOT SELF-DEFENSE

If Shot Was Fired in Defense, It  
Was in Defense of Home, Not  
Life, He Asserts

Oklahoma City, April 7.—County Attorney Forest Hunter, in a statement today giving the result of his investigation, declared that if Jean P. Day, wealthy oil operator and attorney, shot and killed Lieutenant Colonel Paul Ward Beck, army flier, "in defense of his home, and if he tells the true story of the tragedy, any red-blooded jury will acquit him."

Day "saw something that swept him off his feet" when he returned to his home early Tuesday and found his wife in the arms of Colonel Beck, the attorney said he was convinced.

"Beck was not looking at Judge Day at the time of the firing," he added. "It was not in self defense the attorney shot Beck down. It is my opinion that Day has not told the whole truth."

Attorneys for Day, however, declared he "has told the whole truth," and added that Day and Mrs. Day would tell at the coroner's inquest Saturday the same story they have made public "because it is the truth."

"An important matter I think has been entirely overlooked," Hughes stated said. "It is the proposition of a handkerchief being found in the clenched hand of Paul Beck. What was Beck doing with his handkerchief immediately before the gun was discharged?"

Revolver Discharged Accidentally.

Day has declared that he returned to find Mrs. Day fighting Beck. Day said he was upstairs, obtained a revolver, came down, and on confronting Beck struck the army officer over the head with the revolver when Beck drew back one hand. The discharge of the revolver was accidental, he declared.

One thing is absolutely certain in my mind, and that is that the gun was discharged while immediately adjacent to the head of Paul Beck," Hughes declared. "Whether Beck was shot from the front or back is one of the greatest questions involved in the case. X-ray photographs indicate that Beck was not in a position to see his slayer."

"Judge Day asserts that he fired in self-defense. In my judgment, if the shot was fired in defense, it was in defense of home and not of life."

Declaring Day and Beck had been close friends before the tragedy, Hughes asked:

"What extraordinary occurrence changed the mental conditions of one toward the other, what caused Mrs. Day after the shooting to moan, 'Oh, my honor!'"

Hughes asserted in his opinion that there was no doubt that "Hughes" had been served at the Day home the night of the killing," but he said he believed Day was not under the influence of liquor when the shot was fired.

"I do not believe that there were any other persons in the house at the time of the firing of the fatal shot except Day, Mrs. Day and Paul Beck," the statement said.

Mrs. Day was melancholy today, remaining in her boudoir and having little to say to friends.

## IDENTIFY PRISONER AS COAL SWINDLER

Man Held at New Orleans for Another Crime Is Said to Be  
Wanted in Cleveland

New Orleans, April 7.—Jack Goodman, alias Jack Goldwyn, serving six months in the Parish prison here for assault and attempted robbery, was said by the police to have been identified today as Alfred Roman, wanted in Cleveland, Ohio, in connection with an alleged \$1,000,000 coal swindle.

The identification, according to the police, was made by H. A. Ramsdell, investigator for the National Association of Creditors, who said he followed Roman around the United States during the last nine months.

According to Ramsdell's story to the police, Roman and several associates formed a coal company and adopted the name of a prominent coal firm of Cleveland as a means for working their alleged swindle. Roman and his associates, Ramsdell charged, gave the original company as references to credit associations and deposited \$5,000 in a Cleveland bank.

Roman's company, the investigator stated, started business by ordering a carload of coal delivered to an Ohio city and paying cash for it. On the strength of this deal, he said, Roman and his associates bought large quantities of coal on credit and sold it for cash at less than its market value.

Coal operators in Cleveland, Pittsburgh, New York, Brooklyn, Chicago, Toledo, Boston, Newark and Detroit were defrauded of approximately \$1,000,000, Ramsdell told the police. He said he would make every effort to have Roman returned to Cleveland to face charges of using the mails to defraud.

Goodman, or Roman, was arrested two months ago and charged with entering a rooming house, assaulting the landlady, and attempting robbery.

## JAPAN INTENDS TO ABIDE BY WASHINGTON DECISION

(By The Associated Press.)  
Tokio, April 7.—The navy department, in a statement to the local newspapers today, says a conference of the admirals has decided that the strength of the Japanese navy, as restricted by the Washington armament conference is sufficient for the defense of the empire. It was added that a statement would shortly be forthcoming making clear the intention of Japan to abide, in principle and spirit, by the Washington agreement.

## DEMOCRATS RENEW ATTACK ON HARDING

Again Complain to Senate of  
Forced Dismissals in the  
Bureau of Engraving

Washington, April 7.—Democratic senators today renewed their attack on the administration's civil service record. They again complained of the bureau of engraving forced dismissals which in turn were defended by Republican senators.

Taking the floor in debate on the judgeship bill, Senator Harrison, Democrat, Mississippi, criticized the Republicans for not acting on resolutions to disclose the President's reasons for the bureau dismissals. Mr. Harrison said there apparently was a "diabolical plot to do things under cover."

Senator Caraway, Democrat, Arkansas, presented a letter by an Indiana political organization, which he said, indicated the Republicans were "combining the depths" to muster votes in the coming Indiana primaries. Senator Stanley, Dem., Kentucky, intervened to read another letter soliciting contributions of \$10 quarterly to a local Republican newspaper.

"The President may use his axe, but not the stiletto and a poisoned dagger at that," said Senator Stanley, referring to the bureau case.

Senator Moses, Republican, New Hampshire, declared the Democratic attacks had as their basis "animus wholly partisan," while Senator New, Republican, Indiana, said that if other members of the senate foundation were based on similarly "animus foundation," they were "not entitled to a great deal of credit."

The civil regulation requiring filing of charges against dismissed employees, Senator Moses said, applied to the President. Senator Harrison replied that if this was the administration policy, the civil service law might as well be repealed.

## GOVERNOR REILLY FACES CHARGES

Porto Rican Executive Accused of  
Misuse of Public Funds for  
Private Purposes

(By The Associated Press.)  
San Juan, Porto Rico, April 7.—E. Mont Reilly, governor of Porto Rico, and his private secretary, John Hull, are charged in a grand larceny indictment today with misuse of public funds for private purposes. There are four different counts against the men mentioned in the indictment.

The indictment expresses the belief of the grand jury that if present conditions had continued and investigation been delayed one year, the public treasury would have suffered considerable loss.

The district attorney is directed by the grand jury to prepare indictments in the name of the people of Porto Rico and proceed against Governor Reilly and the others on the basis of evidence and testimony obtained by them and delivered to the district attorney for the purposes of prosecution.

## INNOCENT BY-STANDER IS VICTIM OF PISTOL FIGHT

New York, April 7.—A fusillade of shots exchanged between two fire chief suspects and police in 42d street near Fifth avenue tonight resulted in the death of Henry Cross, 46, an attorney with offices at 251 Broadway and a home at White Plains.

Mr. Cross, who was on his way to the Grand Central station, carrying home some articles for his wife, was struck in the heart by a bullet and fell dying to the sidewalk a few doors from the Hotel Baltimore.

Two men were taken to the East 51st street station for examination but they were not placed under arrest.

## NON-POOLERS TO HOLD STATE CONFERENCE IN UTICA APR. 18

Utica, April 7.—A state conference of non-pooling dairymen will be held in Utica April 18 to consider the present situation of the dairy industry in New York state. It was announced at a meeting of the directors of the non-poolers' Dairymen's Cooperative association here today. It is expected that more than 200 dairymen from all parts of the state will attend.

## MISSING JUROR A SUICIDE

Little Valley, April 7.—When supreme court convened today in a suit against the city of Salamanca, Frank Nicholson, one of the jurors, was missing from the box. A court officer was sent to his home after him and found his body hanging in a garage. Illness is said to have been responsible for his suicide.

## SIX KILLED AS PLANES CRASH HEAD-ON IN AIR

Paris and London Express Liners  
Fall to Earth and Burst  
Into Flames

## OCCURS DURING FOG

Pilot, Mechanic and Three Passengers in French Machine  
Lose Lives

(By The Associated Press.)  
Paris, April 7.—Six persons were killed today when airplanes on the Paris-London aerial express route collided head-on over the village of Thieulloy, 25 miles north of Paris, and crashed to earth.

The dead are:

Bruce Yale, a New York exporter, and his wife, who were homeward bound by way of England in the French machine.

M. Bouriez, another passenger in the French craft.

Aviator Mire, pilot of the French machine.

Mire's mechanic, the cabin boy of the English machine.

The entire personnel of both machines, except Pilot R. E. Duke, met death, either in the crash or in the flames that followed it. The British machine carried no passengers, while the French had five.

(Available New York dispatches do not include the names Bruce Yale or Bruce Hale.)

The British machine piloted by Aviator Duke, had only been in use three days on the express route. It belonged to a new company operating a Paris-London line.

The accident occurred during a fog, the pilots seeing each other too late to avoid a collision.

Five persons from the machines were dead when inhabitants of the village of Thieulloy arrived on the scene shortly after the crash and the sixth victim was dying.

## Remarkable Accident is British View.

London, April 7.—The British airman, which collided with a French passenger liner this morning, carried no passengers, named Duke, and possibly a cabin boy being on board, according to authoritative information in London tonight. The presence of the cabin boy on board had not yet been definitely established late today and at that time the air ministry had not been advised that the pilot was killed.

The British machine was one of a number operated daily in the London-Paris service for passengers, mail and goods.

The aerial service between London and Paris was started in the spring of 1919 and has come to be regarded as one of the most dependable means of transportation between the two capitals.

At first only patronized by travelers of an adventurous turn of mind who wanted to have the thrill of air travel, it has developed within the last two years, with the element of danger reduced to the very minimum, into a steady daily route. At least half of the passengers have been women. The trip is made in a little more than two hours.

Prominent officials have frequently availed themselves of the air route to attend hastily-called conferences in either Paris or London.

Collisions between airplanes were not unusual in the war, when flocks of machines were moving swiftly in a comparatively circumscribed area. The meeting in mid-air of these two aerial expressers, however, almost inconceivably traversing the very same air channel out of the virtually innumerable ones available, constitutes one of the most remarkable happenings in the history of aviation.

## SHIP SUBSIDY PLAN NOW BEING ARGUED

Charges That It Would Prove Discriminatory Made and Denied Before Committees

Washington, April 7.—Charges that provisions of the administration's ship subsidy plan would prove discriminatory were made and denied today before senate and house committees considering the proposal.

Representative Davis, Democrat, Tennessee, predicted that some features of the bill, especially the provision which would authorize American shippers to make deductions in their income taxes amounting to five per cent of the freight paid on cargoes carried in American bottoms, would work to the advantage of the "big" shipper and to the disadvantage of the less prosperous one.

Chairman Lasker of the shipping board, however, declared the income tax section which it is estimated would result in an aggregate deduction of \$10,000,000 annually, would discriminate against no one. Once in force, he said, certain minor inequalities in the application of the legislation might come to light, adding this could be remedied.

In planning for the building up of a privately owned merchant marine the shipping board, Mr. Lasker said, hopes to assist in the establishment of an American merchant fleet comparable to that of Great Britain.

### THE GRANITE SITUATION

Dauley & Wright Still Able to Supply Monuments at Reasonable Prices.  
In connection with telegrams, etc., mentioned in yesterday's Star regarding the granite situation, the following was received by Dauley & Wright in a bulletin from Barre, Vt.  
The Granite Cutters' International union has voted unanimously to reject the new agreement at reduced wages offered by the employers, and will not resume work until a new contract has been signed. James Duncan, of Quincy, International president, announced today. The action applies to all New England shops affiliated with the board of control of the granite industry. The latter announced it would put into effect the American plan of open shop if its offer was rejected.  
The proposed agreement rejected by the granite cutters provided for a reduction of from \$1 to 80 cents an hour, the minimum wage which would apply to cutters, polishers and sharp-ners. The board of control, which made the offer, represents the Inter-national Monumental Granite Pro-ducers' association, Inc.; the National Building Granite Quarries association, and the Granite Paving Block Man-ufacturers' association of the United States, Inc.  
The board of control represents pro-ducers in the following localities: Vermont, Barre district, Hardwick, South Ryegate, Bethel, Morrisville, Heche Plain.  
Rhode Island, Westerly.  
Massachusetts, Quincy, Chester, West Chelmsford, Cape Ann.  
New Hampshire, Milford, Concord, Redstone.  
Maine, North Jay, Vinelhaven, Stonington.  
Connecticut, Waterford.  
Mr. Duncan said that in several other communities of New England, not represented by the board of con-trol, employers had agreed to continue the \$1.00 an hour wage pending set-tlement as to other details of a new agreement.  
As mentioned in yesterday's Star it will be seen by the above article, that regardless of the outcome of the strike at various Quarry centers, we are in a position, (with our large stock of monumental work on hand) to sup-ply local needs at lower prices than will again be enjoyed for years to come. The present is not too soon to order work for Decoration day. It will enable anyone to see their monu-ment all lettered at our place, before it is erected in the cemetery.

### TRADING AGAIN ON TREMENDOUS SCALE

Gulf States Steel Dominant Feature of Record Day; Price Move-ments "Spotty" at Intervals  
New York, April 7. — For the fifth consecutive session of the week trading on the stock exchange today took on enormous proportions, transac-tions aggregating 1,650,000 shares and establishing yet another new record for almost two years.  
The movement of prices was "spot-ty" at intervals, as a result of realiz-ing for profits in several of the issues which made greatest gains in the pre-ceding days of the week. This was most noticeable in such stocks as Baldwin and Studebaker, although net losses in both cases were limited to fractions.  
Gulf States Steel was the dominant feature, gaining 10 1/2 points on steady buying which exceeded the demand for any other stock. Crucible was used to drive in the shorts and several of the less dominant stocks, including Sloss-Sheffield, Great Northern Ore, Otis and Iron Products made note-worthy gains.  
Rails contributed largely to the market's constructive aid, coalers leading that division on the heavy ac-cumulation of Lehigh Valley, Read-ing and Norfolk & Western. Second-ary rails were featured by Rock Is-land at a gain of 3 1/2, and many of the investment shares, including Le-cities, Grangers and cotton carriers, rose one to three points.  
Local utilities made impressive re-sponse to the plan by which I. R. T. receivership was averted. Inter-borough Consolidated preferred gained 4 1/2 points, Manhattan "L" 2 1/2, and Brooklyn Rapid Transit 3 1/2, sim-ilar or greater advances being made by the bonds of these companies.  
The course of money was helpful to stock dealings, call loans holding at 4 1/2 per cent, this applying to re-novations into the coming week.  
Burgundy in the bond market was unabated on another large volume of dealings. Several of the Liberty series, notably the 3 1/2s, second 4s and sec-ond 4 1/2s, registered still higher rec-ords, although easing later on profit-taking.  
Local utilities were the dominant issues, however, on the outcome of the traction situation which averts re-cievership or other serious financial consequences. The several Inter-borough Consolidated and Interbor-ough Metropolitan issues showed ex-treme gains of three to almost nine points, but these, too, gave way to realizing. Manhattan Elevated, Third Avenue and Brooklyn Rapid Transit also made substantial gains.  
Rails continued to follow the up-ward course of stocks, at new maxi-mums, coalers, cotton carriers and grangers leading.

Work to Start on Ball Park Fence.  
The contract for the construction of the new fence around the ball grounds in Nehwa park has been awarded by the Board of Public Works to Fred D'Angelo of this city, and work will be commenced next week. The ball park is now being regraded with the exception of the diamond, the grading of which was done last fall. Dirt from the Maxie theatre excavations is being used to fill in the holes formerly behind the fence, but which are now within the greatly enlarged park.

### DROPS HALF-MILE IN CHUTE

Mountain Climber Has Thrilling Ex-perience in Heavy Snow in Washington.  
Snoqualmie, Wash.—Stepping out to the edge of a snow-covered precipice to point out some scenery to his wife and little son, Howard Rupert, a sales-man, disappeared into loose snow.  
Mrs. Rupert quickly notified men nearby, who looked in vain for several hours for Rupert. They were about to give up the search on account of dark-ness when the missing man appeared. He declared he had dropped into a loose snowdrift and falling through landed directly into an unused log chute to carry timber in summer to the river far below.  
Rupert said the chute was filled with ice and that he tobogganed down into the valley at such a high rate of speed he could not yell loud enough to be heard. Loggers found he had taken a ride of fully half a mile in the ice-bound log chute. Rupert was unin-jured, but was minus a large part of his wearing apparel.  
X-Ray Solves Theft.  
Casper, Wyo.—An X-ray examina-tion of a woman's stomach solved a diamond ring mystery, according to County Attorney Purcell. Mrs. Eva Hammond, a prisoner in the county jail was placed in custody of a phy-sician while county authorities con-sidered what method to pursue to re-covery of the ring. Mrs. Hammond was arrested after she attended a dance one night, following complaint charg-ing her with theft of a diamond ring valued at \$1,200 last October. A tip from Mrs. Hammond's dancing partner led to the X-ray test.  
Their Taking Ways.  
There was a swap social in Oak Park the other evening. The local paper, commenting on it, said: "Every-body took something they didn't need. Many of the ladies took their hus-bands."—Chicago Herald and Ex-aminer.

### IS YOUR CHILD SICK AND AILING?

Give It Gude's Pepto-Mangan — For Thirty Years Doctor's Favorite Tonic

Children that grow too fast and play hard or perhaps work too hard at school, yes, some children do work at school become pale and a little yellow, and then mothers and fathers are worried about them. The young-ster do not eat with their usual big ap-petite and so they become thin and tire easily. There is a simple and good way for this. It is Gude's Pepto-Man-gan, the tonic rich in a certain form of that is readily absorbed by the sys-tem. Gude's Pepto-Mangan will soon put color back into the children's cheeks, give them the kind of an appetite every mother loves to see. It is sold by druggists in two forms—liquid and tablet and is absolutely safe to give to any child. Ask your home doctor what he thinks about Gude's Pepto-Mangan. Adv.

## DISRESPECT FOR LAW.

At a time in which there is abundance of law on the statute books, great respect for the law in the abstract and great disregard for it in the concrete instance, there sounds a genuinely inspiring note, and one thoroughly refreshing, coming not from the country districts of the state, where perhaps it might have been more confidently predicted, but from New York city, where on Thursday night the Chamber of Commerce of Harlem dined in the Hotel Commodore. The speaker was District Attorney Banton, who, as noted in the news columns of Friday's papers, rebuked the diners for their disregard of the Volstead act, and warned that they were likely to get into serious trouble. Moreover, he said, criminals, seeing supposedly respectable citizens disregard one law, are likely to apply this logic to their own violations.

Following along the line of law-enforcement, Mr. Banton made a plea for better juries, instancing cases in which men called to serve and actually serving on such bodies have said, that they would not vote to put any man in jail, no matter what the crime; and that they did not believe in law and never had.

These instances, along with the acquittal of Miss Stone, admitted slayer of Ellis Guy Kinkadee, a Cincinnati man, by a Brooklyn jury on the same day, emphasize the fact that to a much less extent than formerly, is there respect for law; and they are occasion for gravest concern on the part of citizens who see in the present social conditions of Bolshevik Russia indications of conditions that may come to pass in our own land.

As regards overt violations of law, there is no doubt that they are more numerous than ever before. The records of our courts show that, and it is confirmed by the daily reports in the newspapers. Whether eventually the tidal wave will flow another way no one is able positively to assert, but if there is a better era to dawn it is certain that it will be the outcome of a new spirit in humanity, which will realize that the interests and desires of the nation as a whole are greater than those of any state, and those of the community than of any individual. Law is said to gain its authority from the consent of the governed, but this has a general, rather than a specific meaning. Certainly it does not mean that any individual should do as he pleases, but rather that the desire of the majority shall be accepted as the rule of government. It is well, therefore, that the entire fabric of stable government be destroyed, for every citizen to conform to law as it appears on the statute books and as it is laid down in the constitution. There are orderly processes by which changes can be brought about, but violation of law merely because it does not accord with one's personal convictions, appetites or ideas tends to disorder, revolution and ultimate revolution.

As regards the jury system, there is no doubt that originally it was well devised, an aid it does not appear at this time to function as a bulwark of liberty, it is not improbable because the average citizen has ceased to consider it, like taxpaying and voting, as one of the duties which he owes to the state. In fact it is well known that jury serving has become something to be evaded rather than to be accepted as a civic duty. Rather, therefore, than to content himself with criticism of the system, it would be well, should the system itself be given a fair chance to prove its continued value by every citizen accepting willingly if not cheerfully the obligation which the law imposes. And as for the jury itself, particularly in criminal cases, it would be well should its members more fully appreciate the fact that they are asked merely to decide as to guilt or innocence of the defendant. The law itself fixes the penalty, and for this the jury is in no way responsible, the sole purpose of that body being to determine the fact of guilt or innocence, and not at all as to whether the law itself is in accord with personal convictions.

As for an unjust law, if in fact there are such on the statute book, the way to secure its repeal is rigidly to enforce it. Such enforcement will bring clearly home to the individual and through him to the governing bodies, the quality of its provisions, but so long as it is a law, it should be enforced if respect for our institutions, government and laws is not entirely to be destroyed.

Medicine in the Army.  
The new medical ideas in regard to the prevention of disease by being regularly overhauled, not merely to test their present condition, but to cover deceased teeth, tonsils and other possible sources of infection. It should lighten the duties of retiring boards.—[Springfield Republican.]

The Tide of Travel.  
According to the steamship agencies the summer will see a great rush of Americans abroad. And judging from the number of foreigners coming over on lecture engagements, they are after the rest of the money.—[Wilkes-Barre Record.]

Paper Money-Makers.  
Moscow's paper-money makers have not struck yet, but the Berlin printers of paper marks demand an eight-hour law, and may go out. Both countries realize now how sharper than a serpent's tooth it is to have a thankless proletariat.—[Brooklyn Eagle.]

Tampering With the Jury.  
Ugly rumors are heard from time to time in the course of California's many murder trials of unethical conduct by either defense or prosecution. The Bruch case is the latest to give rise to one of these stories. Tampering with the jury is charged this time.—[Buffalo News.]

## A Firm of Burglars.

One of the newest and most curious developments of crime is the discovery in New York that a firm of burglars rented an office at No. 25 West Twenty-third street, as a convenient base for carrying on their business. The firm is now locked up and the office is useless but the businesslike burglars had made careful observations of a safe three doors from their office and intended to raid it. They had been studying the safes in the neighborhood, and expected to do considerable spring business.—[Philadelphia Record.]

## Not Safe or Sane.

What are left of the Russian monarchists now seems bent on assassinating both Bolsheviks and moderate Republicans, and embroiling other countries in their plots. Is there a safe and sane party in Russia?—[Buffalo Express.]

## Don't Have to Listen.

All sorts of talk and music are being broadcasted to the radiophones of the country, and happily the audience doesn't have to listen if it doesn't want to. That is an advantage such an audience has over one sitting in front of the footlights.

If somebody starts to talk about soap, tires, philosophy, or other matters which pass over the head or under the feet, all that is necessary is to switch to some other wave length, where a bit of jazz, or perhaps something more interesting may be picked up.

Happily, too, the speaker or performer will not know when he is talking into thin air and not to an audience. He may sing on all puffed up with pride, and not know the difference.—[Utica Observer.]

## Last of the Hapsburgs.

The last Hapsburg who sat on the imperial throne of Austria and the heir in place if not in title to the Holy Roman Empire died in exile yesterday when the former Emperor Charles I. passed away on the little island of Madeira in the Atlantic ocean.

Tragedy ruled strongly in this young man's life. The mysterious death of Crown Prince Rudolph at Mayerling and the assassination of Archduke Francis Ferdinand at Sarajevo made him heir to the crown while the sudden death of the aged Francis Joseph raised him to the Hapsburg throne. It was his fate to take up the burden of a world war at 27, and to rule without experience and without responsibility for that war, when the fortunes of the Central Empires had begun to decline, to see the mighty monarchy his ancestors had been centuries building up, crumble in a day, and to face death when his spirit had been broken by the failure of the ill advised, blunderingly conducted misadventure to recover the Hungarian crown of St. Stephen.—[New York Herald.]

## DELAWARE POMONA GRANGE

Interesting Session Held Wednesday in Stamford—Sixty Delegates Present.

Stamford, April 7.—There were about sixty delegates in attendance at the spring session of Delaware Co. Pomona Grange, held at Stamford Wednesday, April 5th. Reports showed that all granges are in a prosperous condition. Walton, the largest one, has a membership of 197, and Hamden, the youngest grange, which was organized in May, 1921, has 161 members with 17 in waiting.

After the excellent dinner, served by the Stamford grange, Worthy Deputy Howard Parker of Cortland Co. installing officer, was introduced and gave a very interesting talk on grange work, after which, with the help of Worthy Deputy A. D. Howell of Delaware County, he proceeded with the installation of officers, who were elected at the December meeting.

Mrs. H. H. Hoag, the lecturer, then took charge of the meeting, and introduced Judge A. J. McNaught, who gave a very cordial welcome to Pomona grange, saying he was ready to assist the grange in all its work as well as words, and that farmers should organize. We know that capital is organized and labor is organized, and there is no reason why the greatest occupation should not be organized.

The response was given by Worthy Master R. D. George, giving thanks and appreciation for the kind words spoken by Mr. McNaught. The next speaker was J. A. Lennox, leader of the Junior Project work in Delaware County, who showed slides and gave a very entertaining talk on the work.

Mrs. A. W. North, president of Delaware county Home Bureau, gave a very interesting talk on its work, saying it is the aim to teach more of the things to make efficient and well organized homes and not to think too much about the "Almighty Dollar", which is shutting out not only the horizon, but the vision of God; that we should prepare for tomorrow, but live today. This was followed by a question box.

In the evening the fifth degree was conferred. Appropriate refreshments were served, and an interesting program was enjoyed. Before adjournment the following resolution was adopted.

Be it resolved that Delaware Pomona grange go on record as strongly opposed to the manufacture and sale of oleomargarine and filled milk or bogus milk within the state of New York.

A vote of thanks was extended to Stamford grange for delightful hospitality.

The June meeting will be held with the Hamden grange.

## A GLIMPSE OF THE PAST

Clifford Walsh Will Sing Popular Hit "By-Gones" at Strand on Monday and Tuesday—Revival of the Illustrated Song.

Do you remember when the illustrated songs were a feature of every well regulated motion picture show? Mindful of the popularity of the illustrated songs in the past, Manager Rose of the Strand theatre has arranged to present at all performances Monday and Tuesday Clifford Walsh will sing, with appropriate illustrations the song "By-Gones" now one of the biggest hits in New York city. Mr. Walsh has pleased Oneonta audiences many times with his remarkable tenor voice and it is safe to say that he will prove a great drawing card.

The feature picture will be "Tim Mix in 'Up and Going'" his latest production. It has been some time since this popular actor has been seen on the screen in Oneonta and Manager Rose was fortunate to be able to secure this big picture.

## Easter Trip to Washington.

Miss Ella M. Briggs, Miss Florence Matteson, Miss Caroline Hurlbutt and Miss Helen Fritts, the former of the High school faculty and the latter three of the faculty of the Normal school, left yesterday for Washington where they will spend a week viewing the sights of the capitol city and enjoying the wonderful spring weather there. They will stop en route in New York city and Philadelphia.

## HONOR ILLEGAL TRAIN RIDER

Large Force of Officers Nab But One Man Instead of Hobo Army They Expected to Find.

It is seldom that a solitary train-rider has the distinction of having seven officers on his trail but it happened yesterday to Fred Martin, hailing from Los Angeles, California. It happened thuswise. During the afternoon Captain Mantica of the D. & H. police received a wire from Delanson that a bunch of 15 or 20 hoboes was on a freight train that had just passed through there. So Captain Mantica, wishing to take the whole outfit into custody, summoned three of his men and three city officers and when the train came in at about 5 o'clock the officers swarmed over the cars, but only to find one man who didn't have a right on the train.

The incident was rather laughable but it surely wasn't Captain Mantica's fault that the other hoboes dropped off at convenient points up the line. Martin, who firmly believes that every man in Oneonta is a police officer, will answer to a charge of illegal train riding in city court this morning.

## GRANT DR. RUSSELL VACATION

Presbyterian Congregation Gives Pastor Opportunity to Recuperate From Recent Illnesses.

Because of his continued ill health, Rev. Dr. J. C. Russell was granted a vacation of four weeks or such longer time as is necessary for him entirely to recuperate, at the annual congregational meeting of the First Presbyterian church held Thursday evening. Dr. Russell is as yet undecided as to where he will go during his period of recuperation.

Three trustees were elected to succeed themselves. They are Albert Morris, senior member of the board, J. F. Thompson and W. F. Eggleston. Reports from the various church organizations were read and showed very satisfactory conditions of work accomplished during the past year and of finances.

That dinner party will not be a success unless the "top-off" is right. To guarantee the dessert's delight use Baker's Certified Flavoring extracts. Advt. 4t.

## THIS IS RELIGIOUS BOOK WEEK

It is not enough for people to read the current novels and magazines. Religious families ought to build up good libraries of religious books. Children should be made familiar with them in their youth. It is a wholesome thing for every family who cares for the higher things of life to give attention to the additions that are made to the home library. This ought to include something more than the incidental, trivial and flippant books of the moment.

We list below just a few well chosen books that are highly desirable for this Lenten season or for Easter gifts.

**Dr. Harry Emerson Fosdick's**  
"The Meaning of Prayer"..... \$1.15  
"The Meaning of Service"..... \$1.25  
"The Meaning of Faith"..... \$1.35

### LOCAL MENTION.

—Ray VanWoert is driving a new Apperson four passenger sport model, which he purchased recently from John R. Todd, the local agent.

—A nice line of new books, both fiction and miscellaneous, will be ready for patrons at the Huntington Memorial library today.

—Auditor C. V. Farrell of the state income tax bureau will be at the Chamber of Commerce offices until April 15 to assist in making out income tax returns.

—The pulpit of the First Presbyterian church will be filled on Sunday morning by Rev. John Fletcher Hall of Colgate Theological seminary. There will be no evening service.

—Harry C. Bard, Jr., is the name of a nine pound son born to Mr. and Mrs. Harry C. Bard at their home, 77 Elm street, late last evening. Mother and babe are doing nicely.

—Tomorrow is Palm Sunday and as such will be observed in the churches of the city. At St. Mary's church palms will be blessed and distributed at the 10:30 mass.

—A dinner meeting of the Boosters is announced for Monday evening at 6:30 in the private dining room of the Hotel Oneonta. Matters to be discussed will include Clean-Up Week and a parking place for automobiles.

—The ladies of St. James' church will hold their annual Easter sale and supper on April 18 in the parlors of the First Baptist church instead of the Chapin Memorial church as previously announced.

—The city firemen held another of their enjoyable dances at Municipal hall last night, with a good crowd in attendance. Collier's orchestra provided music that seemed to just suit the dancers.

—That old-fashioned chicken dinner with biscuit about which some have been inquiring will be served at the station restaurant at the Elks' terminal building this evening commencing at 5:30 o'clock. The price will be the same as throughout the week, 50 cents to all. This is your last opportunity to dine with the Elks during the big fair.

### FOUNDRY BUILDING REPAIRS

East End Plant Being Put in Shape for Early Occupancy by Oneonta Iron Company.

Work has been commenced by the Ira A. Sullivan company making necessary repairs and improvements to the foundry building at East End to be occupied by the Oneonta Iron company. The building has not been used for some years and, although in good condition, there are necessary repairs and alterations to be made before the iron company can commence foundry operations.

The machinery has arrived and will be installed as soon as work on the building is completed. R. E. Findlay, who will be the foundry manager, has moved his family to the city and is superintending operations. The date on which the foundry will open has not been announced.

### Meetings Today.

The Altruistic World Wide guild of the Main Street Baptist church will meet this afternoon at 2:30 with Frances Gibbs, 11 Nehiwa place.

The Burroughs' Nature club will meet this evening at 7:30 o'clock at the residence of Mrs. Irving H. Rowe, 27 Elm street.

Members of Company G will meet at Elks' home at 6 o'clock sharp this evening.

### Meeting Sunday.

The Epworth league will be held as usual at the Elm Park church Sunday. The next chapter of the book, John Wesley, Jr., will be given.

### Something to Talk About.

But don't talk too long as the other fellow may beat you to it. If anybody in Oneonta thinks he can beat our prices on used cars of equal quality, now is the chance. Below we list some of them:

Chevrolet Baby Grand, touring, \$175.00.

Ford touring, \$125.00.

Model 90 Overland touring, \$275.00.

Overland-R. C. H. Special, \$49.95.

Detroit Eight cylinder, touring, new tires, \$125.00.

Buick four cylinder, 1918 model, \$395.00.

Buick six cylinder, Landau roadster, \$675.00.

We are putting these prices on these cars to move them this week. And of them not sold this week, post-poned cannot be bought for the prices given above. If you are looking for a car, here is your opportunity. The Francis Motor Sales company, 299 Main street. Adv. 11

### The Boosters.

All out for the big revival meeting of The Boosters. It's a dinner meeting Monday the 10th, at 6:30 p. m., at the Hotel Oneonta, private dining room. Notify Stewart Keenan, chairman of the dinner committee, phone 669, or Dr. J. H. Wayman or Lloyd Kennedy, to save a plate for you. Reservations must be in by Monday noon. Price 75 cents.

The Hallelujah songs at the revival will be to the tune of a Clean-up-Week and a parking place for autos. Boost or Bust, which will you do? Everett Hicks, Secretary. Adv. 11

### A GUEST AT THE ELKS' FAIR

WELL-KNOWN RESIDENT OF PORTLANDVILLE NARRATES HIS EXPERIENCES

Everybody Had a Good Time, Including Avery Goodman—Take His Advice and Attend Tonight—Admission Free Tonight, Elks' Night, the Last of the Fair.

"For I begin on my own account," said Avery Goodman of Portlandville in The Star office last night at 11:30, "I have to tell you, Mr. Goodman says that in every respect the fair was excellent. The arrangements and appointments throughout admirable, every feature of the entertainment such as would appeal to the visitor, whether or not an Elk or Elksess. She wants me to do this sort of folks know that, if I have to, I can speak proper."

"Fact was," continued Mr. Goodman, "I hadn't looked to come in, but when two fellows born over on Elk creek, from which I spent the lodge got its name but not all its teeth, asked me to come along and see how they had tickets and would stand for the dinner and other amusements, I kinder seemed my duty. So I meandered, comin' in Pet's auto; and b'leve me, it was some experience what I experienced!"

"After one thing there was a conductor standing in the vesty-bool of the car on which we started, who looked as jolly as Wilber of the Cooperstown limited, as efficient as John Bell, of the 8:20, and as imposing as Will Gurney when he heads the Old Fellows of the state in parade; and the way they hustled folks through minded me of the time I visited son Silas in New York, getting to the way at what they call a rush hour. 'Twant a very long journey, but we must have gone mighty fast, 'cause when I'd just walked the length of the car, there I was in California. I had seen pictures of Hollywood, and Ma Goodman has a second cousin at Sawyer's Bar, but California wasn't a bit like I thought it was, though in some ways puttier."

Next, I sailed over to Hawaii—it wasn't a step—and there David and his hull court was in attendance, and on to Treasure Island—Captain Kidd buried his riches there and they're there yet for all know. Thenst, as it reads in Gulliver's Travels, I set sail for Cipango, whist it is Japan. Right here I pause to remark that every cowpond on my ticket read "Good for Ten Cents" to the fact that I did not see that I'd left that after all they was good for ten cents—every one of them.

"Ain't settin' sail, I proceeded to Italy, chiefly being Naples and Vesuvius in the background, and so on toward to Turkey, where they said they was "Ships of the Desert." I didn't see no camels, and the only thing that made me think of them was that 'twas a long time to go without drink, but I did see that 'ere harem and them genooine beauties with veils, and with cigarettes that made me think of the ol' days when Cynthia and me smoked mullins. In Holland I seen toolips enough to plant an acre, and you could get them flowers cheap too, if you wanted them.

"France wuz the nex' stop and there was much of interest, and some things real tasty; and in Spain a body felt just as if they were readin' one of Eggleston's letters writ on the Geo. Washington. Somewhere along the line there was that famous dancer, Fat Emma, which has to be seen to be appreciated.

"The port of final destination was Cuby. A fine place it was, and like the real thing well populated with towerin' Americans. Everybody wanted to buy stuff, and the place was plenty of amateur Cubans willing to accommodate. Everybody was happy and there was a lot of folks there buyin' an' sellin', and laughin' an' talkin' and admirin' them Sherwood pictures whet beat Mr. Angelo, and havin' the best of times; and when everything else wuz over, there wuz dancin' to music which made a body think of the ol' days when he shook a hoof to tunes by Betsy's Frogmen beginnin' to end everybody enjoyed himself, and it wasn't a bit like them times in Brussels, when as a man named G. Gordon Byron said—we had his piece in Sanders' Fourth Reader—"On with the dance, let joy be unrefined!"

"If there's anybody who hasn't been to the big fair, includin' as it does a grand tour of the world, I say to go tonight. It is the last chance, and it's worth all it costs, though my hosts did look a little sad when they counted up my expenses, includin' that excellent dinner."

### Admission Free Tonight.

For several reasons tonight is expected to be the biggest night of the fair. To begin with, it is Elks' night and every member of Oneonta lodge, who has the interests of the order at heart is expected to be present. In the second place it has been announced that there will be no charge made for admission. The World tour, itself worth many dollars, may be taken "free, gratis, for nothing," the Elks' footing the transportation bills. And last but not the least it will be the last night of the big fair and few who can attend are going to miss the opportunity.

Everything will be going full blast tonight. The entertainers will make a special endeavor to please, and every feature will have an enhanced interest. Things will be tuned up to give everyone the time of their lives.

### Hello! Young Folks.

Young folks think old folks are fools and old folks know some young folks are. Well, keep on with your high notions and if you won't let my 12 unselfish and experienced old dads help and advise you how to safely make small amounts roll up to millions of dollars, at six per cent compound interest, for homes and farms, old age sickness or loss of a job, 80 out of every 100 of you will later be pitifully and helplessly snubbing around, getting kicks and cuffs, while the village housewives shoo you, the farmer's dogs pursue you and bite you if they can. It's no gain to me or to my 12 good old dads and I'm not giving you hot air or pipe dreams, so it might be well to paste this in your hat and remember it. Good day. ### THE POSTMASTER'S OUTING

By Direction of Department will Make April Trips With Carriers.

By direction of the Postmaster General, Postmaster Sherman of Oneonta and all other like officials in the service, from whose offices there is rural delivery, are required to accompany the carriers over their routes during the month of April and October for the purpose of acquiring for the Department an accurate condition of roads traveled by carriers. Also to render a detailed report as to the location of patron's boxes. Boxes shall if practicable be erected on the right hand side of the road as traveled by the carrier and in such position as to be easily and safely accessible for the delivery and collection of rural mail by the carrier without leaving his conveyance. All boxes are required to have names of patrons on them and face road. An observance on the part of patrons of the regulations noted above is essential to an expeditious and efficient service. All rural patrons are requested to cooperate in an effort to maintain the best possible service by promptly correcting any irregularity in the location and lettering of their boxes, facilitating the work of the carrier and avoiding any interruption in the delivery and collection of your mail.

Postmaster Sherman, of whom inquiry was made, states that he expects fully to comply with the suggestion of the department, and at an early date he will take the long trail with his carriers, going carefully over all routes with an eye to general conditions and alert for suggestion which may improve the service.

Though the postmaster himself said nothing of the sort, it would appear that the designated months would permit a combination of duty with pleasure, the inspecting officers taking a trout rod along in April and a gun in the month of October.

### COMMENCE PAVEMENT WORK

Operations Rebegin on Lower Chestnut Street and Will be Pushed Rapidly Forward—Detour Being Regarded.

Work recommenced yesterday on the West End pavement, a small force of men being put to work. The number will be increased to the full number next week, and the work pushed forward as rapidly as possible. City Engineer Gurney has hopes that, with weather and other conditions favorable, the pavement can be completed by the first of July.

Engineer Gurney has been notified by the Southern New York Railway, that the ties, rails, etc., for the company's tracks on the street have arrived and has been ascertained that the trolley company's part of the work will be completed as soon as possible.

Motorists will be allowed to pass over the road while the detour is being regraded and improved. It is expected that with the use of the new tractor the detour will be ready for traffic in a week or ten days and then the portion of Chestnut street under construction will be closed absolutely and the detour used.

David E. Hollister has been appointed foreman of construction and will have full charge of the work under supervision of city officials. Mr. Hollister has had extensive experience in concrete work in Little Falls and is regarded as a very capable man.

### Special Program at Lutheran Church.

### SITUATION ON THE D. & H.

Conditions Due to Coal Strike Getting Worse Daily—Great Lessening of Activity Locally—Heavy Cuts Expected Today.

The effects of the coal strike are being felt more day by day in Oneonta by the D. & H. company. Division Superintendent Leamy declared yesterday, heavy curtailments of expenses have already been made and still greater cuts must be made in the near future. Yesterday six more freight locomotives were retired from service, making 22 in all. This move lessens the working time of all men in the freight pools. Three switch crews in the yards were taken off and a further cut is expected to be made today.

No orders affecting the men in the machine and car shops have as yet been received but it is believed that extensive cuts will have to be made there. The men in the machine shops and roundhouse are now working only 40 hours a week.

Mr. Leamy stated that yesterday was one of the quietest days the road has experienced in some time. But three freight trains were run north out of Oneonta from 6 a. m. to 4 p. m., whereas normally from 8 to 10 trains go out during the same ten-hour period. The let-down in business was felt in every department of the road.

### BOOK PEEKSKILL ATHLETICS.

Strong Amateur Team from Brooklyn for Two Games on July Fourth.

Walter Mitchell, manager of the Peekskill Athletic ball team of Brooklyn, was in the city on business yesterday and while here arranged with Thurston A. Crouse, booking agent for the Oneonta ball team, to bring his team here for two games with the locals on July Fourth. The visitors defeated the strong Utica team of G. team, three out of a five-game series last summer and report a stronger team for the coming year than they had last year.

The Peekskill Athletics are the pick of the Brooklyn amateurs who play ball as a diversion and who secure what games they are able to play including a two weeks trip upstate each summer and play on the co-operative plan, dividing the proceeds whatever they may be at the close of the season. It is believed that they will give the Oneonta team about as fast competition as the latter will meet the coming summer.

**DEATH OF REV. L. A. WILD**

Native of Butternuts and Long Honored Member of Wyoming Conference.

Rev. L. A. Wild, long an honored member of the Wyoming conference and well known about this section, died at his home at Mt. Upton Thursday of heart failure after a two weeks' illness. The funeral services will be held from his late home Sunday afternoon at 2 o'clock with interment in the family plot at Mt. Upton cemetery.

Mr. Wild was a native of the town of Butternuts and was 77 years of age. He attended the Gilbertville academy, the Cooperstown High school and later Cazenovia seminary. He taught for several years. In 1872 he united with the Wyoming conference and served as pastor of various churches until 1880 when ill health compelled his retirement. He returned to the ministry in 1894, but in 1898 his health necessitated his permanent withdrawal from active service, since which time he has resided at Rockdale. He married in 1868 Miss Lillie V. Brown of Guilford who died three years ago in May.

During his active ministry Mr. Wild served churches at Masonville, New Berlin, Coventry, Windsor, Rockdale, East Worcester and Westford and was everywhere recognized as an earnest devoted minister of the gospel and genuine and kind hearted man. The sympathy of all who knew him and of all friends of the family will be extended to the surviving daughter, Mrs. D. M. Hallock of this city and the son, James A. Wild of South New Berlin.

Beside the members of his immediate family he leaves two sisters, one will be best remembered in the Butternut valley as Mrs. Minnie Parsons, now remarried and residing in Kansas and Mrs. Helen Adams of Ridgefield, Conn. He leaves also three grandchildren, Miss Elizabeth Hallock of this city and Harvey and Marguerite Wild of South New Berlin.

**FUNERAL OF DR. ROBINSON.**

Sorrowing Friends Crowd First Presbyterian Church at Delhi.

Delhi, April 7.—Funeral services were conducted for Dr. Robinson, Thursday afternoon at 2 o'clock, at the First Presbyterian church which was filled to its capacity. Rev. Geo. Makely, pastor of the Second Presbyterian church, and Rev. Grant Robinson of the Methodist church took part in the services, but as his father had wished in his life time, the son, Dr. W. Cortland Robinson, addressed the people. "Father—the hour has come" and "sorrowful, yet rejoicing" was the theme of the son's words. The elders of the church acted as bearers and the burial was in Woodland cemetery. Rev. Stewart M. Robinson, grandson, of Lockport, was unable to be present on account of sickness, so it happened that the son who spoke was the only blood relative present at the services.

**DEATH AT UNADILLA.**

Mrs. Lemuel G. Chamberlain Succumbs to Consumption.

Unadilla, April 7.—Agnes Irene Balmatier, wife of Lemuel G. Chamberlain, died at the family home here on Thursday after a two years' illness from consumption. She suffered an attack of influenza about two years since and had been unable to speak a loud word since, passing into a steady decline, from which she seemed unable to rally. The funeral services will be held on Monday at 2 p. m. Rev. Wilbur C. Dodge of the Methodist church will officiate and interment will be made in Evergreen cemetery.

The deceased is survived by her husband and three children, Lena, Dudley and Paul Chamberlain, her Mrs. Mary J. Palmatier and by one brother, George N. Palmatier of Walton. Her age was 35 years and the family has resided here about nine years. She was a member of the Methodist church at Sidney Center, from which place the family moved to this village.

**JOHN B. TODD DIES IN KANSAS.**

Native of Middlefield Spent Most of his Life in West.

Mrs. S. F. Germond of South Side received Wednesday night a telegram from Gardner, Kansas, bringing word that her uncle, John B. Todd, had died that morning. No further particulars were given.

Mr. Todd was a brother of the late Andrew N. Todd of Oneonta and will perhaps be remembered by some of the older residents of this vicinity. He was born in Middlefield 72 years ago and when a boy his parents bought what is known as the Todd homestead at Hartwick Seminary, now owned by Charles L. Todd, his nephew. When in young manhood, he went west and had made his home in Kansas ever since. For several years past he had been proprietor of a large ice cream manufacturing plant there.

He is survived by his wife and four children, all of Kansas. Mrs. Germond, John R. Todd and Mrs. Edna Miller, all of this city, are nieces and nephew of the deceased. It is presumed that the funeral and burial will be in Kansas.

**With the "Y" Boys.**

Members of the Boys' department of the Y. M. C. A. are invited to attend a fishing trip next Wednesday. Charles Beams and Kenneth Wheeler will conduct one group to Baker creek, while Gaylord Smith and Sanford Haines will head another division that will try their luck along the Ouleout. The boys will leave the "Y" at 7 a. m. All are requested to "sign up" in advance.

Secretary Smith announces that the annual membership campaign will be conducted from April 26 to 29. Members of the council will act as captains of the various teams, and the campaign will be conducted in much the same manner as last year's successful drive.

Secretary Smith entertained the members of the boys' council and their girl friends at his home, 118 Spruce street, last evening. A pleasant social evening was enjoyed and at a late hour light refreshments were served.

**BYRON THURSTON DEAD.**

Native of Gilbertville for Many Years Well Known Oneonta Barber.

Andrew Byron Thurston, perhaps best known to Star readers as "Bil" Thurston, died at his home at Guilford on Wednesday evening after an illness of a year's duration, aged 63 years. Mr. Thurston was for many years engaged in the barber business in Oneonta and is well remembered by all the older residents of the city. The funeral services are to be held from his late home at Guilford and interment will be made at Mt. Upton.

Mr. Thurston was a native of Gilbertville, where his father was the village shoemaker. He learned the barber trade and conducted a shop for a number of years before removing to Oneonta, where for years he was one of the best known barbers. He was associated in business for a number of years with George W. Reynolds and at other times conducted a shop individually.

Later he removed to Scranton, Pa., where he followed his trade for several years and then returned to Oneonta and remained a few years. About 12 years since he removed to Guilford where he conducted a shop combined with a pool room and cigar and candy store. He had been unable to work much during the past year.

The deceased was of a jovial nature and had numerous friends in the city, always adding to the mirth of any group or gathering. He was a member of the old Lewis Hose company, an aggregation of convivial spirits that flourished in Oneonta for years, always good fire fighters. He was also a member of the Otsego Masonic lodge.

Mr. Thurston is survived by two sons, Louis B. Thurston of this city and Lynn E. Thurston, now a resident of San Jose, Cal. He leaves also two brothers, George of Maple Grove and Joseph Thurston of Rockdale, and one sister, Mrs. Mary Bediet, whose husband has been dead for years and who resided with and cared for the home of the deceased at Guilford.

**HOME-MADE RADIO SETS**

V. W. Wildgrube of this City, after much experimentation, finds that High Priced Sets are not Necessary—Surprising Results Attained with Simple Apparatus.  
Radio enthusiasts, of whom the number is increasing almost daily in Oneonta, will be interested in the experiences of V. W. Wildgrube of 354 Main street, who has made thorough tests of radio receiving outfits, both commercial and home made, during the past year. Although he has secured wonderful results with comparatively made apparatus, Mr. Wildgrube has found that it is not necessary to have elaborate high priced outfits in order to receive satisfactorily the concerts, lectures, and other matter broadcasted daily by stations in all parts of the country.  
Mr. Wildgrube has found that an entirely satisfactory receiving set can practically be made with other than a vacuum tube and a small soldering outfit. This home made set will do anything that the high priced ready-to-operate receiving set can do and can be constructed at a cost ranging from \$5 for a single tube receiver which is quite satisfactory when head receivers are used, to \$50 to \$100 for a complete set with amplifiers for use with loud speaking devices. These figures include all necessary equipment such as vacuum tubes, head receivers, storage batteries, antennae, etc., not usually included in the price of commercial sets.  
During recent tests of home-built equipment, Mr. Wildgrube has clearly demonstrated the superiority of his set. He has received Springfield, Mass., Boston Newark Pittsburgh Washington Detroit Chicago and Madison, Wis. besides scores of amateur stations. Mr. Wildgrube warns prospective purchasers of equipment against buying outfits especially those offered at a low price which would be practically useless here because Oneonta is from 200 to 300 miles distant from all sending stations except that at Schenectady (WGL). Any cheap sets on the market are good only when used with a radius of not to exceed 25 miles from a station. After experimenting with different circuits and testing some of these cheap sets Mr. Wildgrube has found that a carefully made home-built apparatus is far superior.  
Many people are of the opinion that a radio receiving outfit is a very complicated affair. That theory is quickly exploded when one examines a set or looks over the working drawings. The mechanism required is very simple. During the past few months several local amateurs, including school boys with practically no knowledge of electricity or mechanics, have constructed receiving sets that yield surprising results.  
Regarding the antenna equipment, Mr. Wildgrube states that it has been his experience, and that of other local amateurs, that complicated aeriels are not necessary. One amateur uses a single wire stretched between the gables of two houses about 50 feet apart. Another is using an antenna composed of door bell wire nailed to the rafters in the attic of his home and with a single vacuum home assembled set has heard Detroit, Boston, Washington and practically all the high-potential broadcasting telephone stations in between. At present the most manufacturers of high grade equipment recommend a single wire from 75 to 150 feet long and stretched at a height of from 3 to 50 feet. Stretched copper wire is best for this purpose. Iron wire should be avoided because of its magnetic qualities and also because of its poor conductivity.

**Do You Have Backache Over Kidneys? Limbs Swell?**  
Try to follow Mr. Agans' Advice  
Albany, N. Y.—"Ever since my early boyhood I have suffered from weak kidneys and as I grew older they became worse. I got so I suffered continually with backaches, my limbs would swell, my joints became stiff with rheumatism and my bladder became weak. I would have to quit my work entirely several weeks at a time. I was 'all in' and nearly 'down and out' with this ailment. Nothing seemed to give me any relief although I tried everything I could hear of in the medicine line. I was finally advised to try Dr. Pierce's Anuric (kidney and backache) Tablets and thru the persistent use of this medicine I was completely cured of all my kidney ailment and bladder weakness and I have never had any trouble from these ailments since. The 'Anuric Tablets' have made a new man of me and I never fail to recommend them when I hear a complaint from anyone suffering with kidney or bladder trouble. Before I took 'Anuric' I had almost given up hope of ever getting better, but thanks to Dr. Pierce's Anuric, I am in good health and able to work every day." Morton E. Agans, 464 Wash. Ave. Obtain these Anti-uric-(acid) Tablets of Dr. Pierce's at your nearest drug store; or send 10c for trial pkg. to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.

**GRANDMOTHER IS IN COLLEGE**

Aged Woman Matriculates, and Has Had Thirst for Education for Years.

Liberty, Mo.—Mrs. Mary A. Church, a grandmother, has entered William Jewell college in Liberty after the flame of desire for a college education had burned with unflinching determination for more than 35 years.  
Mrs. Church, who has five grown children, matriculated with her two sons, G. A. Church, eighteen years old, and James M. Church, nineteen. A grandchild, George W. Billings, six years old, attends school at Neosho, Mo.

Finishing high school in Detroit, Mich., in 1885, Mrs. Church, then a girl of her teens, longed for further education. Continuous illness in her family made it compulsory for the girl to help support her family following her graduation.  
But it was not long before more important responsibilities claimed her time, the girl marrying Dr. Frank Church, a young Baptist minister. When the children came the young mother was too busy caring for them to be active in her efforts to obtain the college education.  
The mother and her two sons entered college here as freshmen this year.
